

US Dept of Veterans Affairs, which is a purely socialized institution, fraudulently claim that SUICIDAL veterans do not ask it for help. What that really means is VA is not listening. What it refuses to hear or see does not exist. 24 veterans died by suicide on VA properties in a span of 18 months from 2017-2019. Two self-immolated on facility front steps same as protesters do in Communist China's Tiananmen and Socialist Russia's Red Squares protesting tyranny. Now America joins those ranks as well. US mass media remains silent about these issues in America while constantly in our faces about China and Russia's dirty laundry.

100 US military veterans die by suicide every day screaming HELP without getting needed care from Dept of Veterans Affairs or Socialist America, and VA claims none ask for it?!

Brought to you by VA-murdering US veterans to
Make America Great Again.
